## JOSHUA MUTHUSI MUTUA

**Computer Science Graduate | IT Support | Python | Cybersecurity**

Nairobi, Kenya | Phone: 0748903755 | Email: joshuamuthusi00@gmail.com
LinkedIn: https://www.linkedin.com/in/joshua-mutua-b62589346/

## PROFESSIONAL SUMMARY

Computer Science graduate with practical experience in Python freelancing, software testing, academic research and writing, and general IT support. Skilled in troubleshooting software and computer-related issues, Linux environments, Python programming, technical documentation, and software testing. Currently advancing cybersecurity knowledge through the IBM SkillsBuild Cybersecurity Certificate program. A detail-oriented and adaptable technology professional seeking an entry-level IT, ICT support, technical support, systems support, or graduate technology role.

## TECHNICAL SKILLS

**IT Support:** Hardware and software troubleshooting, software installation, system configuration, user support, technical documentation
**Programming:** Python, scripting, debugging, problem-solving
**Operating Systems:** Linux/Kali Linux, Windows
**Networking:** TCP/IP fundamentals, network troubleshooting, network security fundamentals
**Cybersecurity:** System and network security, vulnerability management fundamentals, governance, risk and compliance fundamentals, security operations fundamentals
**Testing & Tools:** uTest, Nmap, VirtualBox, Git/GitHub, technical research

## PROFESSIONAL EXPERIENCE

**Freelance IT, Python & Technical Support**

**Freelance | Remote/Kenya | 2024–Present**

- Develop and modify Python scripts and solutions for freelance projects and learning applications.
- Provide general IT assistance, including software troubleshooting, installation, configuration, and technical problem-solving.
- Conduct technical and academic research and prepare structured documentation.
- Manage independent projects while meeting requirements, deadlines, and quality expectations.
- Apply analytical thinking to identify practical solutions to technology-related challenges.

**Freelance Software Tester**

**uTest | Remote**

- Participate in structured and exploratory testing of web and mobile applications.
- Identify and document software defects with clear reproduction steps and supporting evidence.
- Follow test case requirements and evaluate application functionality and user experience.

- Develop strong attention to detail, analytical thinking, and quality assurance skills.

**Industrial Attachment**

**Enovise Limited**

- Gained practical exposure to a professional technology working environment.
- Assisted with assigned IT and technology-related activities.
- Developed teamwork, problem-solving, communication, and professional workplace skills.

## EDUCATION

**Bachelor of Science in Computer Science**

**Masinde Muliro University of Science and Technology**
Graduated 2024 | Second Class Honours, Upper Division

## PROFESSIONAL TRAINING

**IBM SkillsBuild Cybersecurity Certificate — In Progress**

Current training includes cybersecurity concepts and practical areas such as:

- Governance, Risk, Compliance and Data Privacy
- System and Network Security
- Vulnerability Management
- Security Operations
- Incident Response fundamentals

## PROJECT EXPERIENCE

**Digital Hospital Queuing System — ALX Project**

Contributed to research and solution design for a proposed digital queuing system for busy Level 5 hospitals in Kenya. Participated in user research, personas, customer journey mapping, pain-point analysis, wireframes, and solution development.

## ADDITIONAL INFORMATION

**Languages:** English, Kiswahili
**Interests:** Information Technology, Cybersecurity, Python, Software Testing, Digital Innovation
